This book is very helpful to those just starting to look at “thinking science.” “Design for How People Think” is a good book, but I don’t see it as indispensable for the cybersecurity practitioner. We modeled the Cybersecurity Canon after the Baseball or Rock & Roll Hall-of-Fame, except for cybersecurity books. We have more than 25 books on the initial candidate list, but we are soliciting help from the cybersecurity community to increase the number to be much more than that.
