Economics - CliffsNotes Study Guides

It is the probability of the intersection of two or more events. The probability of the intersection of A and B may be written $p(A \cap B)$. Example: the probability that a card is a four and red = $p(\text{four and red}) = 2/52 = 1/26$. (There are two red fours in a deck of 52, the 4 of hearts and the 4 of diamonds).

Economics Study Guide. Flashcards | Quizlet

Econometrics Help: How to Study for Econometrics. Econometrics is a very important subject which finds applications in several fields. For example, econometrics can help one study how much of the gender pay gap is explained by one's educational level and experience. However, the use of statistical techniques in econometrics to explain complex economic problems makes it difficult for a student to grasp the concepts especially if there are no guided and organized

lectures.
