Fike Cheetah Xi 50 Manuals | ManualsLib

Cheetah Xi and CyberCat offer true peer-to-peer technology, meaning each networked module and sensor can communicate directly with the control panel and with each other in fractions of a second. These addressable systems generate detailed information of the hazard's location, so action can be taken immediately—and in the future—to prevent ...

The Cheetah® Xi intelligent fire suppression control system is the ideal choice for your next installation of fire alarm, clean agent fire suppression, carbon dioxide suppression, watermist and/or sprinkler/pre-action sprinkler systems. The Cheetah Xi is the only fire suppression panel to offer true peer-to-peer technology. That means every fire protection module and sensor can act as a peer, able to communicate directly with the detection control panel...and with each other.

DATA SHEET

The Cheetah Xi gives you the freedom to design the ideal system for your facility. The 1016 system comes standard with two Signaling Line Circuits (expandable to four loops) that support 254 devices each. And you can network up to 128 Cheetah Xi's and/or the Fike CyberCat fire alarm panels, for up to any combination of 130,048 sensors and ...
