### **01-09 - The Service Group**

Fuji Electric's FRENIC-5000 series delivers dynamic torque-vector control, reduced motor instability at low speed, and online tuning. The G11S is designed for constant torque applications, while the P11S is optimized for variable torque applications.

### **General-Purpose Inverter Technologies**

The torque-vector-control type FRENIC5000G9S series is ideal for use in washing machines for commercial use and automated parking garages. The FRENIC5000P9S series is best suited for variable-speed applications such as fans, and pumps. The FVR-E9S series featuring high environmental protection performance is suitable for wood-working machines etc.
