## Heent Assignment - head to toe assessment - NUR 2092 - StuDocu

A comprehensive head-to-toe assessment is done on patient admission, at the beginning of each shift, and when it is determined to be necessary by the patient's hemodynamic status and the context. The head-to-toe assessment includes all the body systems, and the findings will inform the health care professional on the patient's overall condition. Any unusual findings should be followed up with a focused assessment specific to the affected body system.
