Logic, Epistemology, and the Unity of Science / Edition 1 ...

Logic, Epistemology, and the Unity of Science aims to reconsider the question of the unity of science in light of recent

developments in logic. At present, no single logical, semantical or methodological framework dominates the philosophy of science. However, the editors of this series believe that formal frameworks, for example, constructive type theory, deontic logics, dialogical logics, epistemic logics, modal logics, and proof-theoretical semantics, have the potential to cast new light ...
