### **9780761927129: Making Human Beings Human: Bioecological ...**

To a greater extent than any other species, human beings create the environments that, in turn, shape their own development. This book endeavors to demonstrate that human beings can also develop those environments to optimize their most constructive genetic potentials. What makes human beings human, therefore, is both the potential to shape their world in intricate physical, social, technological, and cultural ways and the possibility that these actions will nurture positive development.
