wrong.”

### **Using an External Audio Interface with Facebook Live and ...**

Keep your speakers in phase. Each speaker wire consists of two conductors, a positive and a negative. If you connect these out of phase (that is, the positive on the receiver to the negative on the speaker, and vice versa), you'll hear a definite effect on your sound. Specifically, your speakers can't create the appropriate soundstage, so sounds that are supposed to clearly come from the right or the left won't.
