New Nutrient Content Information Now Online - USDA

I was disappointed that this nutrient composition did not include phosphorus. As a future renal dietitian phosphorus must be calculated daily to ensure patients stay within the correct levels. The book contained everything else I need and I was impressed with all the fast food products that were included. Please add phosphorus to your revisions.

FoodData Central - USDA

Food composition data (FCD) are detailed sets of information on the nutritionally important components of foods and provide values for energy and nutrients including protein, carbohydrates, fat, vitamins and minerals and for other important food components such as fibre. The data are presented in food composition databases (FCDBs). In the UK, FCD is listed in tables known as The Chemical ...
