[PDF] Water Supply Engineering - Environmental Engineering

...

Water quality index (WQI) is valuable and unique rating to depict the overall water quality status in a single term that is helpful for the selection of appropriate treatment technique to meet the concerned issues. However, WQI depicts the composite influence of different water quality parameters and communicates water

quality information to the public and legislative decision makers.

Water Quality Assessment in Terms of Water Quality Index

Water Supply Engineering provides the requisite details of planning and designing an efficient and economical water supply system in urban as well as rural areas, under different site conditions.
